FALLS BOARD TO INSPECT BUILDINGS ON BOLTON FARM

Use of Buildings for School Purposes Offered By Levitt

COST MAY BE TOO HIGH
Remodeling of Buildings For School Purposes To Be Considered

FALLS Twp., Aug. 18—Announcement is made by Alvan C. Thompson, president of Falls township school board, that the school board will inspect two large stone buildings on the Bolton Farms estate to determine if the cost of remodeling the houses into classrooms would be financially advantageous. Thompson said that William Levitt, builder of Levittown, who recently acquired the property, had offered the facilities for the expected influx of new pupils this fall, until the new school on Oxford Valley road, is completed in January.

The school board official said homes in Levittown and Fairless Hills would be completed in November and during that period a greater number of families would move into the homes and add to the burden on existing facilities.

Last year five homes in Fairless Hills built by the Danherst Corp. were rented to the school board at a nominal sum and 150 children studied in the new but then unoccupied homes.

Thompson said that the corporation this year offered to supply additional houses for classrooms, if needed, this fall.

EISENHOWER PLANS AIRBORNE INVASION

General Maps A History-Making Presidential Campaign

BOLD BID FOR VOTES

By Robert F. Clark
(I. N. S. Staff Correspondent)

DENVER, Aug. 18 — (INS) — Gen. Eisenhower mapped plans today to launch his Presidential campaign with a history-making airborne invasion of the Democratic solid South.

The Republican nominee, aides disclosed, plans to take off Sept. 2, the day after Labor Day, on a two or two-and-one-half day barnstorming swing by air that will take him to most of the major cities in Dixie-land.

The hold bid for votes in the traditionally Democratic South will be made in advance of Eisenhower's formal "opening campaign address" in Philadelphia Sept. 4.

Tentative plans call for Ike to speak in at least 10 Southern cities in one of the most intensive Southern campaigns ever waged by a Republican candidate.

Most of the addresses will be delivered to crowds expected to greet the general's plane at airports, saving the time or going into the heart of the cities.

The unique air-age version of the traditional train - platform campaigning by train will take the general to these cities at least, and probably several others:

Richmond, Va.; Atlanta, Ga.; Miami and Jacksonville, Fla.; Birmingham, Ala.; Memphis, Tenn.; New Orleans, La.; and Dallas, Fort Worth and Houston, Tex.

UNION MEMBERS WILL VOTE TONIGHT ON AGREEMENT

Contract of Operating Engineers Will Be Approved or Rejected

AFFECTS U. S. STEEL

Fairless Hills Project Has Also Been Delayed By Walkout

Whether the walkout of the 9,500 Fairless workers will continue will be decided tonight at a meeting of rank-and-file union members who will vote on the contract agreed to Friday between the contractors and the operating engineers.

The strike of the engineers has lasted for 15 weeks while members of other AFL construction trades have been out for a full week in an attempt to force operating engineers to end their work-crippling walkout.

Spokesmen for U. S. Steel have expressed the hope that if the contract is voted on favorably tonight the workers will be back on the job tomorrow morning.

But until a settlement is reached the 35,000 members of the Building Trades Council are expected to stay away from their jobs.

Friday's agreement between the contractors and the operating engineers was completed in the chambers of Judge Alan K. Grim in Philadelphia, after he had told them to try to iron out their differences around a conference table.

Members of the striking locals 542, 542-A, 542-B, and 542-C will vote this evening in the Broadwood Hotel, Phila.

TO INSTALL FIRST PHONE AT LEVITTOWN

Instrument Will Not Be Connected, However, Until Cables Are Placed

WILL SPEED THE WORK

The first telephone to be installed in a home in Levittown will be installed in the home of Dr. Marvin Brown, 50 Serpentine Lane, this afternoon at one o'clock.

But the Brown family will not be able to use their phone for personal or business calls.

The reason—there are no street telephone cables to which to hook the Brown family's telephone. The telephone at the doctor's house will be a "pre-installed" phone. This means that the Bell Telephone Company is going to install the telephone prior to hooking it up for outside use.

The reason given was that by first installing the home receiver the telephone company can have receivers in the homes by the time cables are put up in the streets. Then when the cables are installed it will be a quick and easy matter to connect the home instrument to the street line, give the home-owner a number—and he's all set to use his phone.

W. Wohlhagen, spokesman for the telephone company at Bristol said that the company expects to begin installing the street cables in two or three weeks.

Advising Residents of Mail Delivery in The Township

Residents of West Bristol, who are expecting to receive door-to-door mail delivery in the near future, are being advised of the proposed house numbering system to be used in this section, according to the Bristol Township Civic Association.

"The development map of West Bristol revealed a complicated, impractical lot number system; therefore, the lot numbers could not be used as house numbers for the purpose of mail delivery, as originally planned.

"Due to the duplication of street names in the Bristol area the use of lot numbers would have been confusing to the post office when sorting the mail. Cedar street in Bristol borough uses numbers up to 1200. Cedar avenue in Landreth Manor section have been assigned numbers starting with 2000. Therefore, it was necessary to assign numbers to Cedar avenue in West Bristol starting with 3000. Consequently all houses in West Bristol will have numbers in the 2000 series.

"Mrs. Ann Leighton, mail committee member for West Bristol, will contact the residents effected, to notify them of their respective numbers."

LESS ICE, MORE WATER

Dr. Hans W. Ahlmann, Swedish climatologist whose work on the Arctic regions is known to all climate specialists, says this planet has been getting warmer during the last 50 years—so much warmer, in fact, that the polar ice caps have shrunk and the mean level of the oceans has risen by all of two-fifths of an inch.

Dr. Ahlmann, being a scientist, is not judging by how warm he feels. He has evidence. Until 1920 or thereabouts, the fish-eating Eskimos had never seen a cod. Nowadays cod is almost as important an item of diet in the Far North as it is in Boston. Grain is growing in Iceland today on fields that formerly were frozen solid too late for planting.

Pines and spruces are growing farther and farther north. The White Sea and the Gulf of Bosnia are icebound three or four weeks less a year than they were 50 years ago. Glaciers definitely aren't what they formerly were. Februaries are 10 degrees warmer in Spitzbergen, which can stand it.

The cause of these changes is not yet established. A slight decrease in the inclination of the earth's axis could account for it—except that no such change has been reported. A possible explanation, Dr. Ahlmann says, could be changes in the intensity of the sun's ultra-violet and magnetic radiation.

But there's no immediate need to get alarmed about coming summers—or too hopeful about future winters. Dr. Ahlmann says the temperature rise seems to be leveling off. Perhaps it will start another rise, melting the ice caps until after 10,000 years fish will be swimming into New York skyscrapers like a school of Wall Street speculators.

Maybe, though, temperatures will start falling until, after a fewscore millennia, glaciers invade the United States area again from the North. But make your own guess. Dr. Ahlmann is keeping his neck in.

The dilemma that faces a candidate this year is that he must promise more than ever before, and the barrel is about empty.

In Samoa no one has to pay more than \$5 taxes a year. Samoans are an ignorant people blissfully unaware of what politicians will do for them when civilization arrives.

LESS ICE, MORE WATER

Dr. Hans W. Ahlmann, Swedish climatologist whose work on the Arctic regions is known to all climate specialists, says this planet has been getting warmer during the last 50 years—so much warmer, in fact, that the polar ice caps have shrunk and the mean level of the oceans has risen by all of two-fifths of an inch.
Dr. Ahlmann, being a scientist, is not judging by how warm he feels. He has evidence. Until 1920 or thereabouts, the fish-eating Eskimos had never seen a cod. Nowadays cod is almost as important an item of diet in the Far North as it is in Boston. Grain is growing in Iceland today on fields that formerly were frozen solid too late for planting.
Pines and spruces are growing farther and farther north. The White Sea and the Gulf of Bosnia are icebound three or four weeks less a year than they were 50 years ago. Glaciers definitely aren't what they formerly were. Februaries are 10 degrees warmer in Spitzbergen, which can stand it.

The cause of these changes is not yet established. A slight decrease in the inclination of the earth's axis could account for it—except that no such change has been reported. A possible explanation, Dr. Ahlmann says, could be changes in the intensity of the sun's ultra-violet and magnetic radiation.
But there's no immediate need to get alarmed about coming summers—or too hopeful about future winters. Dr. Ahlmann says the temperature rise seems to be leveling off. Perhaps it will start another rise, melting the ice caps until after 10,000 years fish will be swimming in New York skyscrapers like a school of Wall Street speculators.

Maybe, though, temperatures will start falling until, after a fewscore millennia, glaciers invade the United States again from the North. But make your own guess. Dr. Ahlmann is keeping his neck in.

The dilemma that faces a candidate this year is that he must promise more than ever before, and the barrel is about empty.

In Samoa no one has to pay more than \$5 taxes a year. Samoans are an ignorant people blissfully unaware of what politicians will do for them when civilization arrives.

ECHOES OF THE PAST

(By Courier Staff Member)

Review of the news as it appeared in the Bucks County Gazette issue dated at Bristol Apr. 14, 1904. The Gazette, a weekly newspaper published in Bristol, was discontinued following its merger with the Courier.

One of the huge iron tanks, ten feet in diameter and 60 feet long, collapsed at the Corona Kid Works last Friday evening. The tank is used in the extracting plant and was filled with naphtha. A form of explosion took place and a dent over a foot deep was made the full length of the big tank. The cause

of the accident has not been determined. No one was hurt, but the foundations of the tank were badly damaged.

Rev. Thomas J. MacKay, pastor of the First Baptist Church, who so often takes a pleasing though novel course in the discharge of his ministerial duties, announces through the medium of the Gazette, which every person in Bristol reads, that he will perform the marriage ceremony for any fireman, or for any couple sent by the firemen during their fair and will give the blissful pair a certificate free of charge, provided the wedding fee will be turned into the firemen's fund.

A meeting of the board of pension examiners was held at Fine's Hotel, Bristol, on Wednesday of last week. There being a change in the personnel of the body by the succession in membership of Dr. H. Purcell in the place of Dr. C. H. Read, formerly of Tullytown, the Board was re-organized as follows: Dr. Howard M. Griffey, of Taylorsville, president; Dr. Howard Purcell, Bristol, secretary; Dr. J. E. Groff, Doylestown, treasurer. . . . J. W. Kooker, who is the owner

of the Laurel Bend Stock Farm in Bristol township, is also proprietor of one of New Hope's most successful business enterprises—a booming "pork factory." The report for the season ending April 1st, 1904, shows that during that time 2096 hogs were received at the factory, aggregating a weight of 493,154

pounds, from which were cut and converted into 168,900 pounds of sausage, 10,829 pans of scrapple weighing 15 pounds each, aside from a large quantity of lard. . . . Invitations are out for the wedding of Miss Annabelle Thompson, daughter of Mr. and Mrs. John F.

L. Thompson, of Trenton, and S. Furman Marshall, of Langhorne, which is to take place Tuesday evening, April 19, at 7.30 o'clock in Bethany Presbyterian Church, Trenton. The couple will live at 337 Hansberry street, Germantown, and will be at home after June 1.

ed into the carburetor and blower of Kaiser's 32-foot aluminum-hulled speedster Hot Metal.

He said five gallons of gasoline had been poured into the hull of Kaiser's unnamed runabout, which also was to have been entered in the race.

"It was definitely a murderous attempt," Elliott quoted Kaiser as saying. "I'm sure of it. It could be nothing less than that when you scatter gasoline in the bottom of a boat."

Elliott said the propeller shaft of the Hot Metal would have pushed through the deck, probably killing any occupants as soon as it was started. The gas and stuffed carburetor and blower, he said, might

have exploded, setting fire to the boats. It was unknown which racer was to have been piloted by the well-known auto manufacturer, but he definitely planned to enter in one of them to challenge R. Stanley Dollar, whose craft Shortsnorter won the cup.

Undaunted, Kaiser entered the Gold Cup in his 16-foot Stardust, which he piloted to second place, and also entered a fourth boat, Let-Go-First which his mechanic, Max Collins, brought in third.

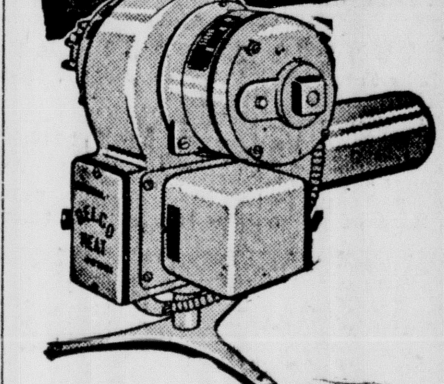

The "sabotage" was discovered by Collins, who investigated when he found a hacksaw blade near the craft. The Hot Metal had a high-powered Allison airplane engine, designed to go 160 miles per hour.

Kaiser Claims Yachts Were Sabotaged by His Enemies

LAKE TAHOE, NEV., Aug. 18—Two racing speed boats of Henry J. Kaiser were reported sabotaged yesterday in what Kaiser is reported to have called "a murderous attempt on his life."

The sabotage was discovered 30 minutes before Kaiser himself was to have piloted one of the craft in the Lake Tahoe Gold Cup race.

Authorities drew less sinister conclusions than Kaiser from the sabotage. Constable Harry Johansson said he believed the sabotage was the work of a crank—possibly someone angry over the noise the Kaiser boats have been making in preparation for the races.

Robert C. Elliott, Kaiser's executive assistant, said the two-inch propeller shaft had been sawed and bolts, nuts and rags had been stuffed into the carburetor and blower of Kaiser's 32-foot aluminum-hulled speedster Hot Metal.

He said five gallons of gasoline had been poured into the hull of Kaiser's unnamed runabout, which also was to have been entered in the race.

"It was definitely a murderous attempt," Elliott quoted Kaiser as saying. "I'm sure of it. It could be nothing less than that when you scatter gasoline in the bottom of a boat."

Cowan, on Vacation From Hollywood, To Be in Play

NEW HOPE, Aug. 18 — Jerome Cowan, on vacation from Hollywood, and Grace Kelly, are the stars of "Accent on Youth," the gay comedy which opens a week's engagement tonight at Bucks County Playhouse.

Other important players are Viola Roache, Ronal Telfer, Harry Haffey, who have acted frequently at the Bucks County Playhouse, and Lonnies Chapman, Natalie Core, David Picken and Jack Otter.

"Accent on Youth" is by Samson Raphaelson and has the graceful charm and rare humor that the author displayed in "Skylark," "The Jazz Singer," and other of his earlier successes.

Jerome Cowan left Broadway for Hollywood after a leading role in "Boy Meets Girl" and has acted in more than 100 motion pictures during the last 16 years. Grace Kelly, currently visible on the screen as leading lady for Gary Cooper in "High Noon," is the daughter of Philadelphia's civic leader, John B. Kelly, and a niece of playwright George Kelly.

The comedy has been staged by Robert Caldwell and the setting designed by Jean Laurain.

By Rabbi Aron Moskowitz

Prayer would indeed be imperfect if it leads us toward God only when in trouble or fear; or had it no other motives than that our wants be supplied. Besides asking for personal needs and giving thanks for favours received we should express our admiration for His greatness. His wondrous works and find delight in His Glory. When the soul is thus uplifted we are motivated by the psalmist's thought: "How wondrous are Thy works, O Lord! how profound are Thy thoughts!"

NEWS OF THE LEVITTOWN COMMUNITY

BRUSSER FAMILY HAS "DRAWING ROOM"

Baby Grand Piano, Fireplace and Desk Make Room Unusual

IS LIKE A MOVIE SET

By Staff Reporter

LEVITTOWN, Aug. 18—Gertrude and Philip Brusser, 26 Stonybrook Drive, have made an unusually attractive room out of the small area immediately adjoining the living room in the Levittowner home. They have made what one might think of as a miniature drawing room.

The carpet pattern from the living room is also used in this area; it is a lovely, soft grey-figured pattern which adds to the graciousness of the room and gives it a somewhat aristocratic air.

The most striking piece of furniture in the space is a baby grand piano, with butterfly wings, one of the few of its type in the country. Its polished mahogany finish adds to the quality of the room.

Against the wall that adjoins the bedroom Mrs. Brusser has placed a fireplace that looks as though it were part of the house. Over it hangs a gold-trimmed mirror. This entire scene is like one out of a Hollywood movie set with a Park Avenue locale.

The area that is closet space in most of the Levittowners has been put to excellent use in the Brusser home. A lovely little desk fits perfectly into the spot, and next to it are shelves from floor to ceiling, shelves filled with expensive looking dishes and bric-a-brac.

Sitting in front of the desk is a pretty little mahogany chair with a needlepoint seat which Mrs. Brusser herself made. The chair gives that final touch of an "18th century drawing room."

A detailed description of this small room may sound as though it were overcrowded to contain what seems like so much, but that is certainly not the effect created by the scene. As the visitor enters the house, he can't see this area; and when he gets far enough into the living room to look, he is amazed and pleased at this little set that adds a touch of the unusual and individualistic to what might have been just another home like many others.

Gertrude and Philip Brusser are to be commended upon their excellent taste in the furnishings for this room.

George Washington's estate was valued at over \$5,000,000 when he died.

Know Your Neighbor...

A Series of Articles Introducing the New Residents of Levittown to the Community.

By Staff Reporter

LEVITTOWN, Aug. 18—Gertrude and Philip Brusser, with their 11-year-old daughter, Barbara Jane, are residents of 26 Stonybrook Drive.

For the past several years the Brussers have lived in Trenton, where Brusser is employed with the International Harvester Corporation. Prior to Trenton, the family is originally from Philadelphia.

Mrs. Brusser is particularly interested in the school situation as Barbara Jane will be entering seventh grade at Delhaas high school this fall. Like many other children who are finding summer activities on the wane after two months of vacation, Barbara Jane is rather looking forward to a new school and a new group of teachers, especially as this will be her first experience with high school life. The pride and joy of the Brusser

household, so far as the interior of the house is concerned, is the use this family has made of the small room off the living room. Like some other Levittowners who have made this room "individualistic," the Brussers have made a room which is altogether different from any observed in this area thus far. Details of it are given in an adjoining column.

BOYS' CLUB BLANKS ALL-STARS, 4 TO 0; RAGO ON MOUND

Behind the airtight pitching of Bobby Rago, the Bristol Boys Club whitewashed the Lower Bucks Youth League All-Stars, 4-0, yesterday afternoon on Memorial field.

The game was played as a benefit tilt for the Mike Murphy Fund. The first ball was thrown out by Fred Leyden while the services of all connected with the game were donated. A baseball was presented to Bobby Petrucci, of the Midget League, for selling the most tickets for the affair.

In blanking the All-Stars, Rago allowed but four hits and fanned eleven batters. He walked one. He appeared in difficulty only in the fifth when both Campbell and Hartrity got base hits but he whiffed Sciola for the third out. Rago retired the side in order in the first, seventh, eighth and ninth innings, fanning the side in the eighth.

Managers Vito Delia and George McCay, of the All-Stars, used three hurlers, Hartrity, White and Collier. The four runs were made off Hartrity with both White and Collier pitching shutout ball.

White was the best of the All-Star twirlers as he struck out six batters in three innings, including the side in the fourth. Only ten batters faced him and one of these was wiped up in a double play. He gave up one hit.

The scoring off Hartrity was done in the second and third innings. In the second, the Boys Club scored a trio of markers on one hit. Gibbs got via an error. Gouza walked and when Barkasy got on by an error, the bases were filled. Morris struck out. Gibbs scored on a wild pitch. Brescia hit a short single to right, scoring Gouza. Rago walked and Dougherty fanned. Katz was given a pass to force in Barkasy. Coliella struck out.

In the third, Gibbs whiffed and Gouza again walked. Barkasy grounded out. Gouza stopping at second. Morris' hit to center counted. Gouza. Brescia also hit safely but Morris was nailed at the plate on Young's throw to Ritter.

PENNDL ACES EKE OUT CLOSE 3 TO 2 VICTORY

PENNDL, Aug. 18. — In an eleven inning fracas, the PennDel Aces eked out a close 3-2 verdict over Southampton A. A. in a semi-final game of the playoffs of the Tri-County League. The game was played on the PennDel Memorial field.

After Herb Kaupp had struck out the side in the top half of the eleventh, the Aces pushed over the winning marker. With one down, Marty Braam singled to left and stole second and third. He scored on Ken Kauffman's single.

Kaupp was the winning pitcher, he relieving Dave Muth in the tenth. Muth appeared to be tiring as Southampton put runners on first and third on clean hits but Kaupp was a good fireman as he put out the side.

PennDel had eleven bingles with Farnkie Pursell getting three out of five and Braam, two out of five. For Southampton, Fletcher had two for five.

Eisenhower Plans Airborne Invasion

Continued from Page One

Four states Southern advisers have told Ike he has a fighting chance of carrying—Texas, Florida, Virginia and Louisiana. Three are in Texas alone, where Eisenhower strategists believe they have their best chance of cracking the solid South.

The air invasion replaces earlier plans for Ike to spend a week or more touring the South by train. This plan was abandoned when the hoped-for Dixiecrat revolt failed to develop at the Democratic convention.

The Southern swing will give Eisenhower a one or two-day jump on his Democratic rival, Gov. Stevenson, who plans to take off about Sept. 4 on his first campaign jaunt, a tour by plane and train of the Far West.

Ike will probably take off from New York City on the Southern jaunt, returning to Philadelphia Sept. 4 for the speech GOP National Chairman Arthur Summerfield announced Saturday would be the campaign opener.

Other cities where Eisenhower is already scheduled to make major addresses include Boise, Ida., Aug. 20; New York City, Aug. 25, at the American Legion convention; a farm policy address Sept. 6 at the national plowing contest at Kasson, Minn., and Indianapolis, Sept. 9.

Several other points are expected to be added to the schedule before Eisenhower takes off on his first campaign tour by train about Sept. 15.

The GOP nominee has another crowded appointment list today at his Denver headquarters. Among his scheduled visitors are Gov. Frank A. Barrett of Wyoming and Mayor Glenn Cunningham of Omaha.

Meanwhile, Eisenhower's running mate, Sen. Nixon, issued a statement condemning appeals to

racial and religious prejudices in political campaigns.

Terming such tactics a "threat to American liberties," Nixon declared people who employ them are "just as un-American and anti-American as the Communists, the Nazis and the Fascists."

Eisenhower issued a similar declaration recently.

Nixon's blast followed a statement from the Los Angeles Jewish Community Council which branded as "utterly and totally unfounded" charges that he had been guilty of anti-Semitism.
